## UNDERWATER DIGITAL PHOTOGRAPHY WORKSHOP JERVIS BAY LIVE-ON-BOARD WEEKEND

<b>MV OCEAN TREK</b>		
2 – 3 August 2008 With Kevin Deacon		22 – 23 November 2008 With Kevin Deacon

<b>COST</b>	
Digital Photography Workshop	\$350.00
Ocean Trek Weekend (normal 2 day weekend rate)	\$410.00
* Long weekend rate	\$565.00
Fuel Levy, payable on board	\$7.70

All prices subject to change by operator and do not include Fuel Levy.

### **WHAT'S IT ALL ABOUT:**

Dive Jervis Bay in style aboard the spacious and comfortable live-on-board dive vessel **MV Ocean Trek**. Living on board the boat gives us a wonderful opportunity to dive all sorts of fabulous dive sites in and around the calm, sheltered waters of Jervis Bay. MV Ocean Trek is not only the perfect platform to dive from (no sand, and no lugging of heavy dive equipment to and from dive sites), she also has air -conditioned conference room facilities making our continuing education programmes informative and enjoyable.

The Digital Underwater Photography Workshop is conducted on board MV Ocean Trek over the weekend and covers the various aspects of underwater photography with digital systems. Macro, close-up, standard lens, wide-angle, strobe light and natural-light photography will be covered. You will also be introduced to some different camera systems, their advantages and their limitations. There is a wide choice of camera systems available for hire at Dive 2000 suitable for all levels of photographic knowledge.

This weekend digital photography workshop will suit beginners or underwater photographers with some experience but needing help to improve their current abilities.

### **INCLUDED:**

- Two days of diving done off **MV Ocean Trek**
- **Day One: Three to Four Dives.**
- **Day Two: Two Dives**
- Two nights accommodation onboard **MV Ocean Trek**
- All meals
- Air fills
- Underwater Digital Photography Workshop

### **WHAT YOU WILL NEED TO BRING:**

Besides your personal clothing and toiletries you will require a complete set of dive gear including Dive Computer, tank and weight belt. All bedding, linen and towels are supplied aboard. Ocean Trek has a policy that all divers must use a dive computer to plan their dives. The computer must be capable of calculation of nitrogen absorption and release and monitoring of depth and time, if you do not have one they are available to hire. Bring your own alcohol if required. **Do not forget your Certification Card!** Below please find the optional packages available for hire.

#### CERTIFICATION LEVEL AND DIVING CONDITIONS:

Open Water Diver certification is suitable as dive sites at Jervis Bay are 10 to 18 meters. Some of these sites also provide the option of depths ranging 18 to 30 meters nearby for more advanced divers. All the sites at Jervis Bay are usually in calm, protected waters and strong currents are rarely encountered. Visibility ranges from 10 – 25 meters. We recommend at least a 5 mm one piece suit January to June with extra undergarments, over vest or a dry suit during July to December.

#### Note:

Due to the rising cost of fuel Ocean Trek will collect from you on board, at the end of each trip a small Fuel Levy, calculated per person, per day.
